

SREESANDHYA AJESH

FULL-STACK PYTHON DEVELOPER

Phone: +91-9446085901 | **Location:** Kozhikode, Kerala, India | **Email:** sreesandhyaajesh@gmail.com
LinkedIn: www.linkedin.com/in/sreesandhya-ajesh | **GitHub:** <https://github.com/sreesandhyagit>

PROFESSIONAL SUMMARY

Full-Stack Python Developer with a background in programming education and hands-on experience building web applications using Python, Django, Django REST Framework, and React JS. Skilled in developing RESTful APIs, implementing authentication, and designing scalable full-stack solutions with MySQL. Recently upskilled in modern technologies after a career break and now seeking remote or hybrid Python Developer roles.

PROFESSIONAL EXPERIENCE

Programming Faculty

Microtech, Kozhikode | Aug 2024 – April 2026

- Deliver hands-on training in Python, C, C++, HTML, CSS, JavaScript, MS Office, and Ubuntu Linux for beginner and intermediate learners.
- Design course materials, practical exercises, and mini-projects to strengthen problem-solving and programming fundamentals.
- Mentor students individually, assess performance through assignments, and provide career-oriented guidance.

Faculty in Computer Science

Devine Management College, Kozhikode | Jul 2022 – Aug 2024

- Taught C, C++, HTML, DBMS, MS Office, and Linux through classroom instruction and practical lab sessions.
- Guided students in mini project development, emphasizing logical thinking, coding practices, and database concepts.
- Simplified technical concepts for non-technical learners using hands-on demonstrations and real-world examples.

Programming Faculty

Lakhotia Computer Centre, Kozhikode | May 2006 – Nov 2008

- Delivered comprehensive training in C, C++, Java (Basics), VB, C#, ASP, .NET technologies, JavaScript, VBScript, HTML, CSS, and databases.
 - Conducted practical sessions on Linux and MS Office, focusing on real-world application and workplace skills.
 - Assisted students with programming assignments, debugging, and project work, strengthening core software development fundamentals.
-

INTERNSHIP

Full Stack Python Developer Intern (Remote)

OneTeam EdTech Pvt Ltd, Kochi | Jul 2025 – Present

- Engineered and maintained backend modules using Django, implementing models, views, URL routing, forms, authentication, and session management with optimized database queries.
- Designed and implemented RESTful APIs using Django REST Framework and integrated them with a React JS frontend using Axios and Fetch API for dynamic data handling.
- Established CRUD operations, Role-Based Access Control (RBAC), and secure authentication using MySQL and JSON Web Tokens (JWT).
- Collaborated on responsive UI development using HTML5, CSS3, Bootstrap, and JavaScript while managing version control with Git.

TECHNICAL SKILLS

Programming	: Python, C, C++
Web Technologies	: HTML5, CSS3, JavaScript (ES6), Bootstrap, React JS, jQuery, AJAX, Tailwind CSS
Frameworks	: Django, Django REST Framework (DRF)
Databases	: MySQL, PostgreSQL
Tools	: Git, VS Code, PyCharm, Postman, Redis, Celery, Docker
Concepts	: REST APIs, JWT Authentication, RBAC, Async Tasks (Celery), Caching (Redis) CRUD Operations, MVT, OOP
Operating Systems	: Windows, Linux

PROJECTS

AddItAI LMS – A Role-Based Marketplace Learning Management System

Python, Django, Django REST Framework, React JS, MySQL

- Architected a secure role-based LMS with JWT authentication and enrollment-based access control using Django and MySQL.
- Constructed RESTful APIs and integrated a React frontend (Axios) with marketplace capabilities including paid/free courses, cart, and order management.
- Implemented advanced features such as UUID-based certificate generation, ratings & reviews, role-based dashboards, and secure file access.

SCMS - Student Course Management System

Python, Django, MySQL

- Designed and built a web-based system to manage students, courses, and enrollments with role-based access and complete CRUD functionality.
- Incorporated form validation, filtering, pagination, and optimized database queries for efficient data handling.
- Enhanced usability and reduced manual processing through a scalable Django backend architecture.

BookHive – Online Book Management System

Python, Django, Django REST Framework, React JS, MySQL, Bootstrap, JavaScript

- Created a full-stack book management platform with CRUD functionality for Authors and Books.
- Engineered REST APIs using Django REST Framework and consumed them in a React-based frontend with a responsive UI.
- Optimized book and author management with a user-friendly interface and reliable frontend-backend integration.

Kerala State Youth Festival Information System (Academic Project – 2008)

VB.NET, SQL Server, Crystal Reports

- Built a VB.NET and SQL Server-based system to automate participant registration, event scheduling, and result processing.
 - Generated dynamic administrative reports using Crystal Reports for centralized data analysis and reporting.
 - Improved large-scale event data management efficiency and significantly reduced manual reporting effort.
-

EDUCATION

‘A’ Level Advanced Diploma

St. Joseph's College, Devagiri, Kozhikode / DOEACC Society (New Delhi) – July, 2004 – December, 2005

Post Graduate Diploma in Computer Applications

St. Joseph's College, Devagiri, Kozhikode – July, 2004 – December, 2005

Bachelor of Commerce (Co-operation)

Mercy Arts College Vadakara / University of Calicut – July, 2001 – 2004
